## INDEPENDENT COAL AND COKE CO.

Mines At Kenilworth, Utah.  
General Offices, Walker Bank Bldg., Salt Lake City.

In preparation for a new system of inheritance tax work, Attorney General Shields and State Treasurer Larson are calling upon county clerks throughout the state to send in copies of their inheritance tax records as soon as possible. State officials wish to finish before 1919 all inheritance tax cases against various estates, some of which have been pending since 1905.

## CARBON TEACHERS GET FULL PAY DURING EPIDEMIC

SUCH IS THE DECISION OF THE SCHOOL BOARD.

Meeting Held Tuesday Last. By Telephone Arrangement and All Salaries Have By This Time Gone Forward—No Time Yet Set For the Resumption of Work Throughout District.

Members of the Carbon county school board last Tuesday held their adjourned meeting by telephone, as it were, the influenza epidemic preventing assembling as custom, at Price. About the most important matter to come up was allowance of teachers salaries, which are granted for the full time the schools have been closed—seven weeks. Checks have been mailed out to teachers. Other important bills were passed upon.

All teachers are instructed to hold themselves in readiness for work when the present quarantine is lifted, which it is hoped and new appears will be within a couple of weeks. Next Wednesday, December 4th, being the date of the annual school election, judges and polling places were designated. These are given in another portion of The Sun. Four trustees are to be chosen, three for a four years term, each and one for two years. The latter is from Sunnyside. It is expected the influenza epidemic will have passed by the date of the board's next regular meeting.

## HEBER J. GRANT SUSTAINED

Becomes President of the Dominant Church Last Saturday.

At a meeting of the quorum of twelve apostles held last Saturday morning in the Salt Lake temple, at which all members were present except Apostles George F. Richards and Reed Smoot, Heber J. Grant was unanimously sustained as president of the Church of Jesus Christ of Latter-day Saints.

Apostles Ashton H. Lund and Charles W. Penrose were also unanimously sustained as first and second counselors, respectively, to the president. The quorum then formally, by unanimous vote, sustained President Grant as trustee in trust of all property and wealth owned by the church throughout the world.

Anthony H. Lund, by virtue of the ascendancy of Apostle Grant to the presidency, was sustained as permanent president of the quorum of twelve apostles. Apostle Rudger Clawson, best in line to President Lund in apostleship, was sustained as acting president of the quorum.

The action of the quorum of twelve apostles marks the only procedure necessary by church authorities to install President Grant to the office of chief executive and trustee in trust of the church.

The action of the quorum will be ratified by members of the church at the next regular conference assembly.

## VICTORY FLOUR PRICES AS FIXED BY THE GOVERNMENT

On authority from the office of the national food administration at Washington, D. C., the Utah office last Saturday announced the prices that will be paid by the government at seasonal points for victory flour and wheat flour. Victory flour is \$13.50 per hundred pounds; straight or patent rye flour, \$9.90; white corn flour, \$8.50; cornmeal (cream), \$8.00; barley flour, \$8.90; dark rye flour, \$12.50; yellow corn flour, \$8.90 and cornmeal, \$7.50. In no case will a price higher than actual invoice cost plus freight be paid.

The flour or substitutes must be delivered in full carload lots on export freight rate to New York, Boston, Philadelphia, Baltimore, New Orleans, Galveston, San Francisco, Portland, Ore., or Seattle, Wash. No shipments of less than carload lots will be received from M. H. Greene, Utah representative of the United States Grain corporation. Flour milled later than November 15th will not be accepted by the government except that which is covered by outstanding contracts, sworn copies of which must be submitted.

Local use of the present stocks is encouraged in preference to offering them to the government for purchase, and bakers are urged, as far as possible, to continue the use of substitutes until present stocks are disposed of, although this is not mandatory.

## EMERY COUNTY SOLDIER GIVES LIFE FOR LIBERTY

ELMO, Nov. 25.—Adolph Axelsen has been officially notified that his son, Sheldon A. Axelsen, was killed in action in France, October 4th. The young man was 22 years old. He went into the army, September 6, 1917, and trained at Camp Lewis, Wash. He went overseas in May and was first in action in July, a member of Company B, Fifty-Ninth Infantry. He was almost continuously under fire and never suffered a wound until the fatal one. He is survived by his father and mother and three sisters and one brother, all of whom live in Elmo.

Mail service to Belgium has been resumed, but only such matter as is provided for in the postal treaties can be sent to that country. The mails are not yet open for parcel post articles. This order does not apply to soldiers in the American expeditionary forces whose mail is sent to them addressed to the army postoffice established in France.

Some straight loose coats are tied with a cord around the waist like a bag. Some tunics have all their embroidery on their lower parts.

## CORP. GEORGE D. McMULLIN

Cleveland Young Man Killed In Action, October 26, 1918.

CATTLE DALE, Nov. 25.—A shadow of gloom which was all the more intense for the rejoicing on account of peace, was thrown over Emery county as a whole and the town of Cleveland in particular by the receipt of a telegram by Mrs. Flora Davis of Cleveland, stating that her son, George Douglas McMullin, had been killed in action on the battlefields of France. No particulars have been forthcoming and the grief-stricken mother still clings to the fond hope that there may be some mistake. Many friends of the family gathered at the home to offer consolation and memorial services will likely be held as soon as public gatherings are permitted.

George D. McMullin was born in St. George, September 6, 1892, and came to Cleveland with his mother nineteen years ago, his father having lost his life in the Delamar mines. Most of his life was spent here, but he was also well known in Carbon county, where he worked at the various camps. It was from there that he was called into the army. He left for Camp Lewis, Wash., the day he was 24 years of age and remained at

## CORP. GEORGE D. McMULLIN

this camp until last May when he, together with Milton Cowley, was given a sixty-day furlough to assist on the farm. But after a brief stay of two weeks they were suddenly called back and sent to France almost immediately upon their return. He had held the rank of corporal for some time previous to his death.

"Doug," as he was more commonly known, was of a jovial nature, and was well liked by all who knew him. He was of good moral character and clean habits. He was especially devoted to his mother and ever thoughtful of her welfare. Besides his grief-stricken mother and stepfather, he leaves five sisters and two brothers. They are Mrs. Florence Jensen, Mrs. Sadie Whimpey, Mrs. Robert Whitehead and Mrs. Hilda Shurtick, Leah, Lowell and Loraine Davis, and a host of friends.

## HOLIDAY SHOPPING IS NORMAL

War-time Restrictions Are Removed the Country Over.

Merchants and Christmas shoppers will doubtless be glad to know that the wartime restrictions on holiday shopping have been removed. A telegram conveying this information this week was received by Arch M. Thurman, secretary of the state council of defense, from Grosvenor B. Clarkson, acting director of the council of national defense. The message:

"Before the armistice the council of national defense composed of the secretaries of war, navy, interior, agriculture, commerce and labor entered into an agreement with representatives of leading industries and retail interests to the effect that the sale of Christmas goods should undergo certain restrictions, with regard to the employment of labor during the Christmas season and the conservation of transportation and delivery facilities. Certain other agreements were likewise entered into.

"The council of national defense now believes that as one of the steps essential to the rapid establishment of normal after the war conditions with holiday buying is the desire to give a natural impetus to the re-employment of those normally engaged in the production of holiday material and in the holiday trade.

"The council is further impelled to this decision by reason of the necessity now confronting us to get our military forces and munition factory workers back to the ordinary pursuits of life with the least possible shock in making the change."

Preserved eggs should be rinsed in clean cold water and used immediately.

## FRANK A. WADLEIGH IS MOST OPTIMISTIC ON OIL

GREAT THINGS FOR COLORADO AND EASTERN UTAH.

Any Danger of Worldwide Famine May Be Averted By Developing of Local Shale Deposits—Many Inquiries Coming to Denver and Rio Grande Official From World Over.

The oil shale industry in Western Colorado and Eastern Utah is attracting more attention now than it has at any time since the first investigation reports made by the United States geological survey in 1914, says Frank A. Wadleigh, passenger traffic manager of the Denver and Rio Grande, which runs through and near the main fields being developed in both states.

"More scientific men are on the ground than ever before," says Wadleigh, "and more inquiries are being received. Requests for authentic information are coming from all parts of the United States, South America, Australia and other countries. Two large plants are now being built near De Beque, one of which will probably be in operation before Christmas and the other shortly after. Both concerns are having their machinery made in Denver.

"All danger of a worldwide oil famine, which has been much talked of recently, can be removed by developing the immense oil shale deposits in Colorado and Utah, and legitimate projects are winning substantial support from big men in the industrial and financial world. This promises to be a large and profitable industry for all the Rocky Mountain region, as oil shale production is really a manufacturing industry of vast proportions, requiring extensive machinery and other equipment and employing a great many workers, skilled and unskilled."

Colorado and Utah shale fields are winning prominence in leading oil and financial journals, through development news, scientific reports and editorials.

## BIG ROAD IMPROVEMENTS ARE TO BEGIN IN SPRING

With one million three hundred thousand dollars remaining of the road bonds and approximately five hundred and seventy thousand dollars to come from the federal government for approved projects, the state road commission is planning an extensive campaign of highway construction and repair to open in the spring. Recently the commission authorized immediate survey of nearly one hundred miles of road in various sections of the state with the intention of calling for early bids so that work can be commenced as soon as the weather shall permit.

State Road Engineer Ira H. Browning is planning further new construction to the commission, which will undoubtedly give its ready approval. Need for better transportation facilities and furnishing employment to the great number of men soon to be released from the military service are the two chief objects in planning the road campaign for next year, it is stated by Browning.

## TENTH LIBERTY LOAN CALLS FOR EVEN EIGHT BILLIONS

The amount to be called for in the fifth liberty loan, which is to be launched next April, will be \$5,000,000,000, according to a letter received by Gov. Simon Bamberger from E. E. Violette of Kansas City, Mo., director of the speakers' bureau for the Tenth federal reserve district.

"As peace now is on the way," it is stated in the letter, "the coming two years will be pregnant with meaning, mercy or war, for innumerable millions in all parts of the world. America must do her full part in these important reconstruction days."

In his communication Violette expresses the highest appreciation of the governor's speaking service during the fourth loan campaign.

## PRESIDENTIAL ROOM FOR GEN JOHN J. PERSHING

COLUMBUS, O., Nov. 25.—A campaign for the election of Gen. John J. Pershing, commander-in-chief of the American expeditionary forces in France, to the presidency in 1920 was formally launched in Ohio today by the incorporation of "The Pershing Republican League."

Former United States Senator Charles Dick of Akron, and fourteen other prominent republicans of Akron are sponsors for the movement. Dick's name heads the list of the fifteen men who signed the articles of incorporation which were issued by the secretary of state today.

## ABOUT CHOLERA

If your children are subject to cramp or if you have reason to fear their being attacked by that disease, you should procure a bottle of Chamberlain's Cough Remedy and study the directions for use, so that in case of an attack you will know exactly what course to pursue. This is a favorite and very successful remedy for cramp and it is important that you observe the directions carefully. —Adv.

Arthur J. Davis, well known mining man of Salt Lake City returning to this country from a two years' stay in South America, was so desirous of presenting the Zion Red Cross chapter with its new flag that he wired his offer from New York as soon as he arrived. The offer came too late, however, as the flag had already been presented by E. J. Haddock. Davis will be remembered by old residents of Price as having brought the first oil rig into Eastern Utah some fifteen years ago, which he later operated in Emery county.

## \$100.00

Now comes a reduction of a hundred dollars on all models of the Oakland—due to the factory gradually returning to the "before the war" schedule, thus increasing the output of cars. Oakland closed cars are ideal for all the year round service. The ever present convenience and utility of an Oakland Sedan or Coupe, regardless of the season or weather, becomes to its owner the most important means available for making every moment count to the best advantage.

Oakland Cars are high powered, light weight, roomy and easily handled, giving a high daily mileage at an extremely moderate expense. The comfort enhancing heater, a new feature this year, makes the Sedan or Coupe entirely suitable for this cold weather. The lightening, heavy plate glass windows are quickly and easily adjustable to give the proper amount of ventilation, and in hot weather may be lowered entirely out of the way. A ceiling light for illuminating the interior—large, wide-opening doors—convenient and easily operated driving controls—and the complete and high-grade equipment give three everyday cars a charm made unusual by the thoroughly practical character of all their features.

Drop in and let us tell you more about the Oakland. Or better still, arrange for a demonstration.

## E. A. Collett, Propr.

Main Street, Two Doors East Elko Theater, Price, Utah.

President Carranza of Mexico has signed a decree which returns the monetary system of that country by placing it on a strictly gold basis. The recent monetary crisis was caused by the exportation of silver half-pieces, which, as the result of the high price of silver, were worth more as bullion than as coin.
